Lead Software Engineer with 6+ years of experience designing, building, and delivering web applications, backend systems, RESTful APIs, and business-critical software. Strong expertise in PHP and Laravel with hands-on experience across Vue.js, JavaScript, MySQL, Docker, system architecture, database optimization, and API-driven applications. Experienced in technical solution design, client communication, sprint planning, code reviews, team coordination, and end-to-end software delivery. Actively exploring Go/Gin, Python, cloud services, and AI-assisted software engineering workflows.

CORE SKILLS:

<u>Backend & Languages</u>	PHP, Laravel, JS, C#, .NET MVC, CodeIgniter (v3/v4), Yii (v2/v3)
<u>Frontend</u>	Vue.js, React, TypeScript, JavaScript, jQuery, HTML5, CSS3, Bootstrap, Tailwind
<u>Architecture & APIs</u>	RESTful APIs, MVC, HMVC, MVVM, Repository Pattern, Factory Pattern, Dependency Injection, Microservices, Modular Architecture, Event-Driven Architecture
<u>Databases</u>	MySQL, Microsoft SQL Server, SQLite, MongoDB, Firebase, Stored Procedures, Views, Indexing, Query Optimization
<u>Cloud & DevOps</u>	Docker, Linux, Git, GitHub, CI/CD fundamentals, AWS S3; foundational knowledge of AWS Lambda, API Gateway, IAM, CloudWatch and EC2
<u>Engineering & Collaboration</u>	Jira, Trello, Slack, Mattermost, SonarQube, Agile, Waterfall, Code Reviews, Technical Planning
<u>AI-Assisted Development</u>	Cursor, Claude, OpenCode, Antigravity; AI-assisted coding and agentic development workflows

Education:

✓ BSc. CSIT	Nepathay College, Manigram-5, Rupandehi, Nepal	Nov 2017 – 2023 July
✓ Higher Secondary Education	Oxford College, Butwal, Nepal	Completed 2016

PROFESSIONAL EXPERIENCE

Mavorion Systems Pvt. Ltd	Lazimpat-2, Kathmandu, Nepal	Lead Software Engineer	Jan 2025- present
✓ Client Communication: Partnered with hospital clients to gather requirements, define technical solutions, and ensure timely progress reporting and implementation alignment.			
✓ Development: Engineered a comprehensive Hospital Management System (HMS) using PHP, Laravel, Vue.js , and RESTful APIs , enhancing operational efficiency and automation.			
✓ Project Management: Directed end-to-end project cycles using Jira, Mattermost , and Slack . Oversaw sprint planning, requirement gathering, code reviews, and team leadership to successfully deliver critical HMS modules for Norvic Hospital, TU Teaching Hospital, UCMS, Sushma Koirala memorial hospital and other healthcare institutions.			
✓ Team Collaboration: Led cross-functional teams, ensuring high-quality deliverables, accountability, and effective coordination-achieving consistent on-time project completion and client satisfaction.			

Grafi Offshore Nepal Pvt. Ltd	Sanepa-2, Lalitpur, Nepal	Software Engineer	Apr 2022 - Dec 2024
--------------------------------------	---------------------------	--------------------------	----------------------------

- ✓ **Client Communication:** Collaborated with international clients to deliver project updates and reports.
- ✓ **Development:** Built robust web applications using PHP, Laravel (v7–10), Vue.JS, RESTful APIs, C#, and .NET. and Code review with automation.
- ✓ **Project Management:** Streamlined workflows through tools like Jira, Trello, and Slack. Spearheaded sprint planning, meeting **95% of project deadlines.**
- ✓ **Team Collaboration:** Led team initiatives, achieving **faster project delivery.**

Swivt Pvt. Ltd.	Sanepa-2, Lalitpur, Nepal	Full Stack Developer	Nov 2021- Feb 2022
------------------------	---------------------------	-----------------------------	---------------------------

- ✓ **Development:** Built web applications with Vue.js and Laravel, enhancing functionality via RESTful APIs.
- ✓ **Client Communication:** Acted as the main point of contact for Malaysian clients, ensuring **100% project satisfaction.**
- ✓ **API Integration:** Seamlessly integrated RESTful APIs, improving functionality

Webroot Multipurpose Pvt. Ltd.	Butwal, Rupandehi, Nepal	Backend Developer	Jan 2019-Nov 2021
---------------------------------------	--------------------------	--------------------------	--------------------------

- ✓ **Development:** Improved code consistency by **25%** using repository patterns for web apps and APIs.
- ✓ **Team Collaboration:** Streamlined workflows via Trello, and Flock, integrating webhooks and automation leading to a **boost in workflow efficiency.**
- ✓ **Plan & Execution:** Led project planning and task management for timely delivery of scalable solutions.

Axion Technology Pvt. Ltd.	Butwal-11, Rupandehi	Lead Software Engineer	March 2026 – July 2026 (Part Time)
-----------------------------------	----------------------	-------------------------------	---

- ✓ **Development:** Creating efficient and scalable database structures for optimal data management, engineered a comprehensive Unified Examination Management System (UEMP) using PHP, Laravel, RESTful APIs, enhancing operational efficiency and automation.
- ✓ **Project Management:** Directed end-to-end project cycles using Jira, Mattermost, and Slack. Oversaw sprint planning, requirement gathering, code reviews, and team leadership to successfully deliver critical Exam System to Lumbini Buddhist University

Key Projects:

Eindexamensite:

It is the most used digital exam trainer in the Netherlands and indispensable for good preparation for the final exam.

Link: <https://eindexamensite.nl/>

- Implemented **SSO** for seamless authentication and integrated **Azure Media Player** for smooth video streaming.
- Dockerized the application for scalability and deployed a **load balancer** for traffic distribution.
- Reduced VMs from 4 to 2 by **stored procedures**, optimized database with **normalization, views, and indexing** for significant responsiveness.

Federation of Investment Managers Malaysia (FIMM):

It is a Fund Management System for the Malaysian Investment Managers.

Link: <https://www.fimm.com.my/>

- **Development:** Implemented 7-8 modular services on a unified database architecture with Key Cloak AIMS for secure authentication and authorization using **Vue.js** and **Laravel**, integrating **RESTful APIs.**
- **Client Coordination:** Communicated effectively with Malaysian clients, devising comprehensive project plans and delivering regular progress updates.

- **Team Collaboration:** Coordinated with co-developers via **Slack** and **WhatsApp** to streamline workflows and ensure project alignment.

Lesling:

It's a Microlearning platform for training and e-learning.

Link: <https://www.lesling.com/en/>

- Transitioned technology stack to **.NET MVC** for backend development and built robust **API services** with **Microsoft SQL Server**.
- Developed new user interfaces leveraging **Kendo UI**, ensuring a responsive and user-friendly experience.

Autowiki

A nonprofit organization whose mission is to establish a global online database with digital archives of individual cars.

Link: <https://autowiki2.grafioffshorenepal.com/>

- Developed interactive frontends using **Vue.js** and scalable backends with **Laravel**, leveraging **stored procedures** for optimized performance.
- Improved application efficiency by optimizing **Laravel ORM** and business logic layers.

Digital Sahuji:

Multivendor ecommerce for digital gadgets and products.

Link: <https://digitalsahuji.com/>

- Developed a full-fledged web application ensuring a **responsive** and **user-friendly interface** for seamless customer experience. Engineered backend functionality using **Laravel**.
- Designed and implemented **RESTful APIs** for efficient data handling and system interoperability.
- Optimized database queries and utilized **stored procedures** to improve performance and scalability.
